

Google Classroom with your Xbox or Playstation

Google Classroom can be opened on Xbox and Playstation. There isn't an app that you can add to your consoles. Instead, you are going to have to use the built-in browsers that come on the two devices. On Xbox, it is Microsoft Edge. On Playstation, it is the "www" browser. You will probably know how to find the browsers on their consoles, but if not, there is a search function you can access on the home screen.

Once the browser has been opened:

1. Type in classroom.google.com in the URL bar.
2. A prompt for a Google account will appear.
3. Type in your school email and password – it doesn't end in [google.com](https://www.google.com) and that is ok!
4. The Classroom home screen will open up.

If you have a keyboard you can plug in, you will have a much easier time of navigation. Otherwise, you will have to use your controller to click on the classroom files, open up assignments and type.

You can open assignments and interact with video and written instructions. You can also open attachments like Docs and Slides and type on them. This isn't as easy with a controller, but you can access the work and write on paper if necessary.
